ea? Or to the other location. We need to quit driving things out of Coalville like the fair.

Comments:

- Would be great to get something like this in coalville then we wouldn't have to travel up to South Summit
- it would be a real asset to our end of the county
- we need a good skatepark in north summit such as oakley or park city
- Tax money should NOT be used for this purpose. this should be unded by private money and by those who use the facilites. More benefit goes to coalville than surrounding areas
- there is a great need for these kinds of facilities in the area. A swimming pool needs to replace the one at NSHS
- we need this!
- I hope it will soon be a reality. community is in need for this type of service.
- I think this could provide jobs and added tax base and something fo rthe teens to do after school and on weekends
- I think that not only would this provide a wonderful resource for families and jobs for our teens that the tax base would be a definite plus.
- I would like to hear and estimate of cost and tax increase before committing an opinion on financial support. a facility would be wonderful but at what cost?
- I think this is a great idea. Coalvill e needs a facility in the worst way!!!
- Lets give our kids something possitive to do at night. I would use a lap pool 3-4 times per week if the hours were flexible.
- There is nothing to do in Norht Summit. Kids are always board. If the had this facility kids would have something to do and not get in trouble. It will decrease the rate of teen sgetting in trouble.
- It is about time our children need this the get into too much trouble.
- I was raised here in Summit Co. and I sure would like some more things for the kids to do.
- Why should our area always be going to Kamas to support that fac ility. we need our own.
- Our community need a facility. Rather that piece meeling we need to spend the money to have a great facility for generations to come
- it is needed
- A golf course would provide the income to runa and pay for itself. Right now we need batter managment for the youth programs we have. We have the facillities now but don't take advantage of them.
- We ahve donated to community projects in the past and our family is very active in our community. A recreational center that would provide different activities and events would much better suit our city that a skateboard park that would only serve a small portion of our younger generation. If they wnat a place to skate the funds raised so far should go to fixing the curbs and sidewalks they have destroyed while waiting for the park to be built
- if the membership fees are reasonable we would use this facility alot
- I grew up in summit co. graduated from NSH I would have appreciated some place to go to have to do physical activites. so drugs and drinking wouldn't have become part of my life. Please give our kids a good place to go.
- We would support anything that will help the kides do any activity we want to keep them busy and off the streets. we also would support such a locality if the money we raise would go towards that facility.
- I think this would be a great idea and would get more use that anticipated. It would be so wonderful to have something local for our children.
- For the aquatic part of the facility please make sure the manager is a certified lifegard as well as the employees with cpr training. charge enough for the entrance fee son that the facility is kept in top notch condition. Make sure the employees take pride.
- I woudl love to have more programs in our area that can teach fundamentals of all types of sprots to my children. keeping children active is very improtant to me.
- our family would utilize the NS swimming pool on a regular basis and have done til lately because of lack of upkeep and chlorine levels fluctuating in the pool. we woudl support a new poll if kept clean. also we woudl support other facilites as well if built.
- The si something long overdue for our area. If we want to improve our community and bring in business and residents then we need to do something positive for our community.
- My entire family and extended family and friends drive to kamas several times a month to enjoy their facitliy and have heard a lot of expression and need for one in our area. thankyou for trying
- Build reasonable so we can maintain it and then build on as funds are attainable.
- I would like to see this go through.
- I would rather keep the money i spend at South Summit Aquatics center in the North Summit part of the County. I would support it 100%. Great Idea.
- The facility in Kamas is great. We go there all the time.
- There is no doubtl a facitliy is much needed and would be utilized by our community. Good Luck.

- Senior Citizens need places to go and things to do.
- I feel that the North Summit area is very much in need of a good facility. We as voters need to face the fact that to have good things we have to pay the price.
- The pool definitely are outdated and need to be replaced. South Summit complex is Awesome.
- I feel that this is a long overdue need for our community. The kids and adults need and I believe would utilize this facility often.
- As long as it does not interfere with present activities I am in favor of it.
- I think a rec center would be a great addition to our community. I am concerned about funding though. It would be nice to have some approximate bids and tax consequences available.
- I think that as a community we are missing out on revenue. I spend a fair amount of money at South Summit Aquatic Center. We need to come in to this millennium and show we are interested in our own community.
- This side of the county needs something. Park City and Kamas seem to get much more.
- I realize we have a pool in our area but compared to South Summits the kids would rather go there. I would rather spend the money in North Summit. Also I think more adults would swim if the pool had more to offer.
- I would most likely buy a membership if this was in Coalville. I would buy a membership to the Kamas Aquatic Center only I hate the drive and don't go there as often as I'd like.
- North Summit is in great need of a rec facility similar to the one in Kamas. Thank you for considering this!
- It would be a great idea. Kids and families need a place like this to go that is close to those in North Summit area. Go for it sounds great.
- People need to spend some money in our end of the county. To do this they need some place to spend it either by spend as we go our taxation.
- More community activities - leagues
- My kids travel to SLC to play on leagues
- We need facilities for every one to go and do healthy activities.
- If this facility is placed within the Summit County Rec Complex boundaries Summit County should have most of the financial burden.
- Please let's get some leagues of soccer and volleyball going for the young adults
- We love to go swim at the SS Aquatic Center and if we lived closer we would definitely use the center more. If N Summit had a center with a pool like that we would definitely be there at least once a week. Probably more.
- We need more opportunities for our young people
- Really need it!
- I feel that the NS area definitely needs a rec center. I think that people in the community would really use such a place. Thanks.
- We need something or some place for our youth to do in this community. Currently we have to go to Kamas Park City Salt Lake or Ogden for them.
- We need a facility and soccer field badly. A new Pool would be great.
- My kids need a place to go and do healthy positive activities. Where they will be safe we drive 80 to 100 miles round trips 10 or 12 times a week for basketball and soccer. Also I drive to SLC 1 to 2 times a week for softball and volleyball.
- We need someplace where families can be active. A skate park would be nice also indoor
- There is a serious drug and alcohol abuse problem in our community offering these facilities with this type of choice would do a lot to help curb the problem.
- Me and my children go to Salt Lake or Roy. We need facilities here.
- North Summit need an aquatic center like South Summit. It would really benefit our community. The pool in Coalville is disgusting. When we want to go swimming we drive to Kamas.
- My grand kids need leagues here in town so we don't have to go to SLC or Ogden.
- We need to improve or replace our pool. We have been going to Kamas. The pool director is not dependable to open when posted at our pool.
- I think an area like this would be great for all ages. I've been to the one in Oakley three times on extended family outing and once with a church youth group. I've also been to one in Lehi for extended family party.
- We enjoy Coalville the way it is and would like it to be smaller than it has become.
- I am absolutely opposed to increasing taxes in any form for these purposes. A better survey would include services currently provided by taxation and allow me the option to discontinue some of those services in order to choose some of the items you have presented.
- There is a tennis court already place for volleyball place for softball etc. swimming pool. This is just an added expense we don't need.
- There are current facilities not utilized to their fullest potential. This factor needs to be considered before constructing new facilities.
- Coalville N Summit needs this facility. Kids are walking the streets turning to alcohol and drugs. We shouldn't have to drive 15-30 miles to just have our children involved in activities.
- What happened to money for skatepark?

- We as the leaders of today need to realize the power and responsibility which we are held accountable for to ourselves to our parents and to our children. As an educator I am reminded daily that our youth are our future and greatest asset. We need the desire and foresight to see that
- What happened to money raised for skate park?
- great asset to the community long overdue
- every time we go to Kamas we wonder why we don't have such a facility in the Coalville area. This would be wonderful for our area.
- It is time that families have somewhere to go and spend time with each other inside the community. Our children need a facility like this to keep them active and entertained.
- It would be Great!
- Thank you for looking into this!
- The kids need activities and physical fitness is important for all. the skateboard park would only serve a small number in the community but a rec center could serve everyone.
- I do not agree with building the facility at the existing fair ground location. What is wrong with the business park area? Or find another location. We need to quit driving things out of Coalville like the fair.
- We would like to put our money towards a facility in North Summit instead of paying for a facility in South Summit. Which we do often.
- comments
- We need a good aquatic center with volleyball and basketball nets. Outside have picnic tables and playground.
- We need a nice swimming facility.
- Need a skateboarding area.
- Some place to skateboard and roller blade to ride a shooter.
- The area needs a place for rollerblading and skateboarding.
- The youth of the Coalville and surrounding areas need someplace for the youth to go and have a safe place to play. Coalville area has nothing available
- Coalville needs a complex for the youth to play and also to be close by.
- I am interested in giving our youth and young adults a place to go that has activities that they would enjoy. They need to be able to listen to the music they like and do the activities ie skating dancing etc that they enjoy.
- We have a pool we have tennis courts baseball fields. We need to offer those recreation facilities that we don't have. there are just too many to list.
- We need a place for teens to hangout
- We moved from West Jordan where we had the Kearns Aquatic and Recreation Center and our family enjoyed it tremendously. We would love to see something similar here in Coalville and would be happy to pay more taxes in its support.
- We need a recreational facility soccer field a public golf course and skateboard park. We should not need to depend on the church and school for all of our recreation.
- We really need this facility. Kamas is too far for regular use. It would benefit our community in so many ways. PLEASE!
- My children would love to have a rec center to go play at and we would use it all the time.
- Please we need this so bad. we have gone to Kamas several times we would love one here in Coalville.
- My only concern is that having a fitness center" with weight equipment would compete with an existing business in Coalville."
- We have 3 basketball gyms. We have running/walking track. We have a weight room. We have a swimming pool. That gets used less and less by the public. The hours have been 1-8 pm mon. - sat. for the summer. This summer it's 1-6 pm that is 12 less hours. 1/2 hour swim lessons are not worth the parents time to drive to the pool.
- I believe our community needs this facility. We shouldn't have to drive 20 + miles to do most of these things. Plus it will help our kids stay active all year round.
- I am a little concerned with the location. What are we losing to put a building that size in?
- We have heard that Park City has had help from the county. It would be nice if Coalville was also helped if that was the case. This would be a great asset to the community.
- I would take my children often if the facility was kept clean and sanitized regularly.
- We also need low income housing badly. Under 20 000 a year income.
- I feel it is important for our children to have a safe environment to help them learn and grow.
- My family buys a summer pass for the SS Aquatics center. I would love to have it in Coalville.
- Our community deserves to have something to do here. Why do we always have to drive to Park City or Kamas.
- Coalville City is desperately in need of a facility such as this. I know this will be very good asset for our community. Please for the children of our community.
- I think this would be a great asset to our community. I am glad it is being addressed.
- North Summit area is in desperate need of a recreation facility.

- Please integrate the existing Summit County facilities better. Facilities already exist for all of the activities listed on the other side of this questionnaire..
- A place for weddings and family events is really needed in this area and the building needs to be designed with this in mind.
- I think we have needed this for years! For all ages especially the youth. I know of many families that got to South Summit rec center all the time.. DO IT!
- This would be wonderful for our community. We drive to Kamasj all the time to use their facility so one right here would be great!
- It would be good to have one complex open all the time so you didn't have to worry about school hours and when school facilities were available.
- I would not support a skateboard park. I would support a swimming pool if the school kids could use it during the school year and close the school pool so the pool area could be used for other things. We need good things for kids and grand kids.
- I really think this would be great. Im tired of driving to Park City Morgan or Kamas for my kids to do something.
- Location of center should be in Coalville. The city has property adjacent to open space owned by the school district. County needs an appointed liaison to help coordinate.
- I do not feel we need to duplicate services that are already existing but feel there is a real need for especially the youth to gather. Also feel that adult supervision would be a good thing.
- Finally!!! Under Summit County control and care Not North Summit We need this rec facility we've always needed one. Push Forward!
- I would be in favor of a rec center if it was under the control of summit county because north summit school district doesn't take care of anything!
- North Summit has needed something like this for a long time. It would be very beneficial to residents of all ages. I support it 100%.
- I don't think we should have to drive somewhere else for our kids to be involved in activities because they are not in high school.
